PROFESSIONAL EXPERIENCE

SI HE TAI FENG (YUNNAN) INTERNATIONAL EXCHANGE PVT. LTD.

Lijiang, China

International Marketing & Project Manager

Mar 2025 - Aug 2026

ROLE SCOPE Core member of a 3-person executive team supporting international investment, project development, sustainable tourism, operations and cross-border communications.

SELECTED SCALE 3-person executive team | 2-person project execution team | 5 facilities | 4 local villagers | ~CNY 30K per community hub | 30+ international groups

Jiazi Village | 0-to-1 Sustainable Tourism & Community Operations

- Co-led the transformation of a remote Naxi village into an emerging sustainable tourism destination, balancing cultural preservation, visitor experience and local economic development.
- Oversaw development and operational setup of **5 facilities** - cafe, youth hub, cultural visitor hub, hostel and gardens - coordinating planning, renovation, procurement and launch readiness.
- Managed implementation within approximately **CNY 30,000** per community hub, balancing procurement, materials and delivery under tight budget and manpower constraints.
- Worked within a **2-person execution team** and coordinated **4 local villagers**, contractors and external stakeholders across renovation, accommodation and facility operations.
- Built and implemented SOPs for hospitality, accommodation, tour guiding and facility management, translating conceptual designs into repeatable operational systems and service standards.
- Supported tourism products and business models intended to create sustainable community income while limiting excessive commercialization.

International Programmes & Visitor Experience

- Hosted and designed programmes for **30+ international visitor groups** from Australia, Singapore, the United States, Malaysia and China.
- Designed tailored **5-day entrepreneurial camps** and **7-day cultural immersion programmes** for children, receiving approximately **80% positive participant feedback**.
- Planned and executed **6 live sessions** and **12 online podcasts**, engaging approximately **500 participants**.
- Developed SOPs for on-site business pitch sessions covering logistics, procurement, materials preparation and task allocation.

PROFESSIONAL EXPERIENCE | CONTINUED

Cross-Border Marketing & Brand Development

- Led a **4-person cross-platform marketing team** across WeChat, WeChat Channels and Facebook, generating **43,000+ views** and **100+ new followers** within four months.
- Managed an approximately **CNY 6,000** marketing budget, coordinating content production, publishing schedules and performance tracking.
- Developed localized branding for the Chinese market, including logos, product labels, promotional materials and digital assets.
- Produced bilingual content and standardized visual assets to maintain consistent brand communication across digital and physical touchpoints.
- Served as quality assurance lead for bilingual video and visual content and sustained a monthly output of approximately 5 videos and 2 articles.

International Events & Cross-Border Business Development | Jul 2025 - Nov 2025

- Coordinated cross-border programmes connecting Chinese and Malaysian stakeholders, managing communications, logistics and execution across multiple locations.
- Sourced and coordinated **5 cultural merchants** for a Penang exhibition featuring Dongba culture, aromatherapy and intangible cultural heritage, contributing to **RM3,000 in sales** and reaching **7,000+ visitors**.
- Managed end-to-end logistics for a **20-person Malaysian delegation** in Lijiang, including itineraries, local transportation, stakeholder coordination and communication with local government authorities.
- Coordinated a **130-participant international forum** at Singapore Polytechnic, managing volunteer deployment, regional communications and programme execution.
- Developed a student-entrepreneur bridging initiative that moved students from passive participation toward project presentation and collaboration.

ADDITIONAL EXPERIENCE

FREELANCE BIOLOGY TUTOR

Self-Employed

- Specialized in Biology tutoring for students requiring additional learning support, converting complex scientific concepts into visual diagrams and interactive learning materials.
- Designed individualized teaching approaches to strengthen conceptual understanding and academic performance.
- During the COVID-19 pandemic, developed online teaching methods and supported fellow tutors in transitioning programmes to digital delivery, contributing to learning access for **300+ students**.
